Notice of Receiving the “2025 Best Supplier Award”

In our mid-term management plan "TRS Vision-2025" announced in May 2021, we set "Change," "Respond," and "Enhance" as our mid-term vision, and have been working as a group toward the achievement of the plan and the enhancement of corporate value.

We are pleased to announce that, as a result of these initiatives, we have received the "2025 Best Supplier Award" from Kubota Corporation.

Reasons for Selection

This award is presented to suppliers demonstrating outstanding overall performance in areas such as quality, cost, and delivery. This is our second consecutive year to receive the award, following our 2024 win.

- Achieved zero line and field claims throughout the year
- Continued shop-floor-led improvement activities, contributing to rationalization and efficiency enhancements
